

2021 Collaborative Project Proposal

WORKING TITLE: **CONTRA/DICTION**

CONCEPT/THEME: Can we love and hate? Can something have structure and no structure? Be traditional and anarchistic?

Can we push against and still back away, coexist yet oppose, contradiction is where diametrics exist, and ambiguity, dialogue, and the complexity of diverging views or visions are contained in a single statement.

CONTENT: It can be texts: your voice or opposing voices that you place together. It can be forms, aesthetics that challenge the way something has always been but has been disrupted, and can be both. It can be how a piece is bound, or printed, or typeset.

PROMPT: Just: **CONTRA/DICTION**. Interpret as you see fit.

INSPIRATION: We live with contradiction every day. Issues of identity are front and center. Corporate vs. political power. Personal contradictions: you name it--- it's part of being human.

FORM/STRUCTURE:

Each project will be a single folded folio.
It could be a simple 4 page (single sheet)
or multiple sheets folded and bound.
This opens possibilities for collaboration,
unexpected binding techniques
and a way to challenge what we assume
is a singular way to be/make/think.

SKILL-BUILDING: TBD
